5 HEAL THE WORLD. Dopolni besedilo s primerno besedo iz oklepaja. Samo ena je smiselna. 7 /

The way we treat the world around us can have huge effects on animals and wildlife. Everything from **smoke** (water, air, smoke) from chimneys to the things we throw away can be a danger to animals. For example, sea birds, **die** (die, dance, drink) after eating thrown-away plastic. Cars and other motor vehicles are used too much. These vehicles create **pollution** (evolution, revolution, pollution). In bigger cities like New York or San

Francisco 40 thousand cars use the **roads** (roads, rivers, air) every hour. We're all throwing away far too much rubbish. We bury the rubbish or pile it up in big heaps and this isn't good for our planet. If we want to keep the world a nice and **clean** (ugly, clean, dirty) place to live in we should not throw the rubbish away but turn it into something useful. This process is called **recycling** (hiking, recycling, cycling). We should also try to **make** (feel, eat, make) less rubbish. For example, don't buy a plastic bag every time you go shopping.

Za vsako od slik se potrudi, in ustno na glas tvori pravilne stavke.

Da preveriš, kako ti gre, lahko to dejavnost izvedeš kar na spletu.

Klikni na povezavo: [Touchstone 8 stran 149](#)

Pripeljati bi te morala na stran **149** v našem spletnem učbeniku.
