Having fun in the sun

1 Think about the outdoor activities you like.

Where do you go? What do you need? Ask and answer.

2 Read about some popular activities in Slovenia.

In Slovenia there are lots of fun activities and many things to see and do outside. Here are four of them.

Skiing

These people are skiing in Kranjska Gora. There's snow in winter and the weather is often sunny and not too cold. They're wearing ski jackets and trousers, gloves, special boots and warm hats.

Canoeing on rivers

This group is canoeing on the Soča River. It's beautiful. They're wearing safety jackets and helmets.

Hiking

There are a lot of places where people can go hiking together and have fun outdoors. Forests, hills and countryside are nice in all seasons. Take a rucksack, hiking boots and a picnic!

Rowing

This boy is rowing a wooden boat with his girlfriend in it – it's romantic. They're going to the island on the Bled Lake. The sun is shining and they're enjoying a day out.
