## **GRADIVO VSEBUJE:**

- 21 delovnih listov na temo letnih časov in praznikov.

## **IDEJE ZA UPORABO**

Delovne liste lahko natisnemo (za varčnejšo tiskanje natisnemo dve strani na en list). Za večkratno uporabo lahko liste plastificiramo ali pa uporabimo plastično mapo, v katero vstavimo list, otrok pa nanjo s flomastrom zapisuje rešitve.

Delovne liste lahko uporabimo tudi kot pobarvanke. Otrokom podamo navodilo, da enake predmete najprej enako pobarvajo nato pa preštejejo.

## **PODROČJA, KI JIH KREPIMO**

Koncentracija in pozornost, vidna pozornost, vidno razlikovanje, delovni spomin, številske predstave, štetje, besedni zaklad, vztrajnost.
