

Alpsko mleko

The original

A pioneer and champion of Slovenian milk. Many have trusted it for half a century, since its very beginning in 1967.

This very flavour is best for the home table, be it in combination with cocoa, in coffee or smoothie, as an ingredient in your most favourite cake or simply as a glass of pure alpine milk.

Through the years people could buy this delicious Slovene milk in many different packaging, such as: plastic bags, cardboard prism, cardboard boxes of different sizes and so on.
