

Števni in neštevni samostalniki - vaje

Današnja ura je namenjena utrjevanju.

1. V delovnem zvezku na strani 70 reši naloge:

18 - preberi namige (CLUES) in ugotovi, čigav je nakupovalni voziček (TROLLEY). Na črte pod vozičke zapiši ustrezno ime;

19 - pred samostalnice vstavi A ali AN;

Se še spomniš pravila? Kadar se v izgovorjavi samostalnik začne na samoglasnik (A, E, I, O, U), pred samostalnik dodamo AN, če se začne na soglasnik, pa dodamo A.

20 - vstavi A ali AN ali pa NIČ (ničesar ne dodaš takrat, kadar gre za **neštevni** samostalnik ali samostalnik, ki je v **množini**);

Če se ne spomniš, kako stvari na sličicah poimenuješ v angleščini, si pomagaj s slovarjem.

NEŠTEVNI samostalniki so tisti, ki jih **ne moremo prešteti** - npr.: mleko, kruh, moka...

2. V zvezek napiši zgornji naslov in napiši samo rešitve spodnje naloge.

V povedi vstavi A, AN, SOME, ANY.

1. At twelve o'clock we had _____ food.
2. Can you see _____ birds?
3. When I cough, I drink _____ tea and I feel better.
4. I'm reading _____ book about animals.
5. I need _____ books for my science project.
6. I need _____ bread and _____ cheese, please.
7. I've got _____ bananas but I haven't got _____ apples.
8. I have got _____ banana but I haven't got _____ apple.
9. I haven't got _____ pets.
10. Are there _____ students? There aren't _____ students here.
11. There are _____ students in the playground.

Ko prideš do konca, preveri z rešitvami. Zraven imaš tudi razlago.

3. Nadaljuj v delovnem zvezku na strani 71 z nalogo **22**. V povedi je potrebno vstaviti A, AN, SOME ali ANY, kjer pa je v oklepaju samostalnik, ga je potrebno postaviti v množino. **Preveri se z rešitvami.**
